'MOONDOG' is a prototype solar powered catamaran developed by Envirotecture [www.envirotecture.com.au](http://www.envirotecture.com.au) and sponsored by Eco Boats Australia. This eco-friendly cat is fitted with a 400watt array of solar panels and Optima batteries. The Torqeedo Travel 1kW electric outboard gives it a top speed of 6 knots, making it the fastest boat in the festival.
